

This podcast is presented by The Centers for Disease Control and Prevention. CDC - Safer. Healthier. People.

More than one million Americans have HIV and many don't even know it. With improved treatment and care people are now living with HIV/AIDS. But this life saving treatment never reaches people who don't know their infected. Knowing your HIV status is the best way to help win the fight against AIDS. To find a testing site center near you, visit www.hivtest.org.
